

Premium
Sungreen Eco Solvent Ink

Pure Color to Nature by Sunmicro ink...

Revolutionary Digital Printing ink...

Eco Green & Nano Pigment Technology...

Sunmicro Green Eco Solvent Ink is engineered to be odourless and formulated without the use of harmful chemicals. Using nano ink technology Sunmicro Green Eco Solvent ink delivers a superior and stable ink flow securing longer life for printheads whilst optimising ink adhesion on coated & uncoated substrates. Sunmicro Green Eco Solvent ink has excellent compatabilty with the original OEM ink and is colour matched making the change over procedure a very simple process (plug & play)

Features

- Mix & Match with OEM Ink
- No need for color profiles and flushing
- Strong adhesion and flexibility on all substrates
- Excellent Ink flow and no clogging for continuous printing
- Extended outdoor durability
- No odour and Eco friendliness

Product Range
